How to use this manual

Window Layout

This manual consists of three resident windows:

1 INDEX window

This window shows a table of contents.

The headline of the topic currently opened at the main window is highlighted, so the current location among the manual can be easily confirmed.

2 TITLE window

This window shows the headline of the current topic. This TITLE window never scrolls not to hide the headline.

3 MAIN window

This window shows the main detail contents.

1 Previous/Next

Clicking  or  on the top right of the TITLE window will display the previous page or the next page, respectively.

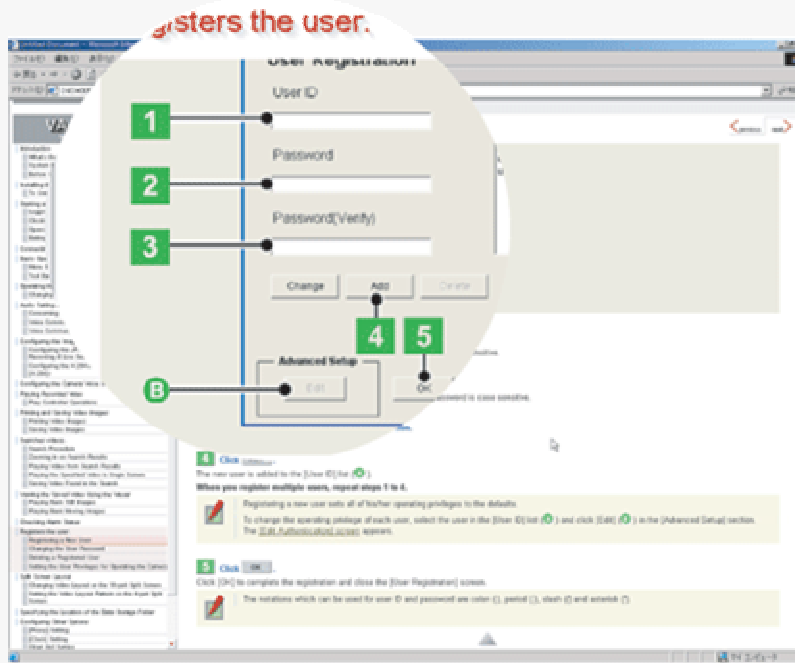

2 Page end

is located at the end of the page.

This mark is also linked to the top of the page. Click on this mark to jump to the top of the page.

Conventions

Numbers

123 ...

Boxed numbers indicate procedural instructions.

1 2 3 ... A B C ...

Circled numbers or circled alphabetic letters are used in sections that describe screen component names or other information.

Symbols

This manual uses the following three kinds of symbols depending on the content of the provided information.

Memo:
Indicates supplementary or related information.

Reference:
Provides references to the associated settings that must be configured on other menu screens.

Caution:
Indicates prohibited or restricted operating and setting instructions.

Uppercase Letters, Graphics, and Punctuation Marks

This manual uses the following notations to present user-interface related information:

Information such as the screen title is represented in all uppercase alphabetic letters, as displayed on the screen (Example: NETWORK SETTINGS).

Information such as operation buttons and icons are represented as graphics, as displayed on the screen (Example:).

The names of specific setting items, tabs, dialog boxes and the like are enclosed in square brackets [] (Example: [TITLE]).

The options or values that you select in a pull-down menu or using radio buttons are enclosed in double quotes " " (Example: "ON", "80").

Screenshots

Each section describing a configuration procedure begins with a screenshot of the corresponding initial configuration screen.

The purpose of this screenshot is to show you the factory default value for each setting item provided on the screen.
